

Managed Disaster Recovery as a Service, Powered by Veeam

Modern data protection and recovery managed by experts to eliminate complexity and downtime

In today's hyper-connected world, customers, vendors and employees expect hyper-availability. CyberFortress ensures that no matter what disaster strikes your business, you'll be back up and running quickly.

1-Click Failover

Restore your full site or a single server to a VMware or Hyper-V environment using only your index finger

Fully Managed

Data recovery experts on call, all the time with 100% service availability from a human being

Rapid Recovery

Aggressive range of failover and recovery time, customized to your organization's needs

DR Simplified

Online and fully integrated portal for managing services, reporting and obtaining credentials

Hyper-Secure

In-transit AES-256 encryption keeps data secure, with backups and replicas residing in geo-redundant, high security data centers

Customized

Our experts will help design a DR plan specifically to meet your needs

Three Simple Steps to Success
